OUR COLLECTION · 2026 EDITION

Wooden Pergolas

Portable pergolas designed in our own workshop: a blank canvas above your dinner table, for chandeliers, bulbs, flowers, fairy lights or candles.

CRAFT MEETS ENGINEERING

A sky above your table.

Some of the most beautiful weddings happen in places with no roof, no beams and no trees. That's where our pergolas come in.

Set parallel over your tables, they carry the lights, the flowers and the magic, and stand on their own feet on any level surface. This presentation shows both sizes, their exact dimensions, and the ways to dress them.

OUR WOODEN PERGOLAS

Two sizes. Endless ways to dress them.

MATTE WHITE · NON-FOLDING

Large white pergolas

Wide enough for guests at the heads of the table. Assembled on site from three pieces.

WIDTH	LENGTH	HEIGHT	FINISH	ASSEMBLY
130 cm (51.2")	250 cm (98.4")	250 cm (98.4")	Matte white	3 pieces

STAINED WOOD · FOLDING

Narrow folding pergolas

Slimmer, with hinges for easy folding and transport. Free-standing on their own feet.

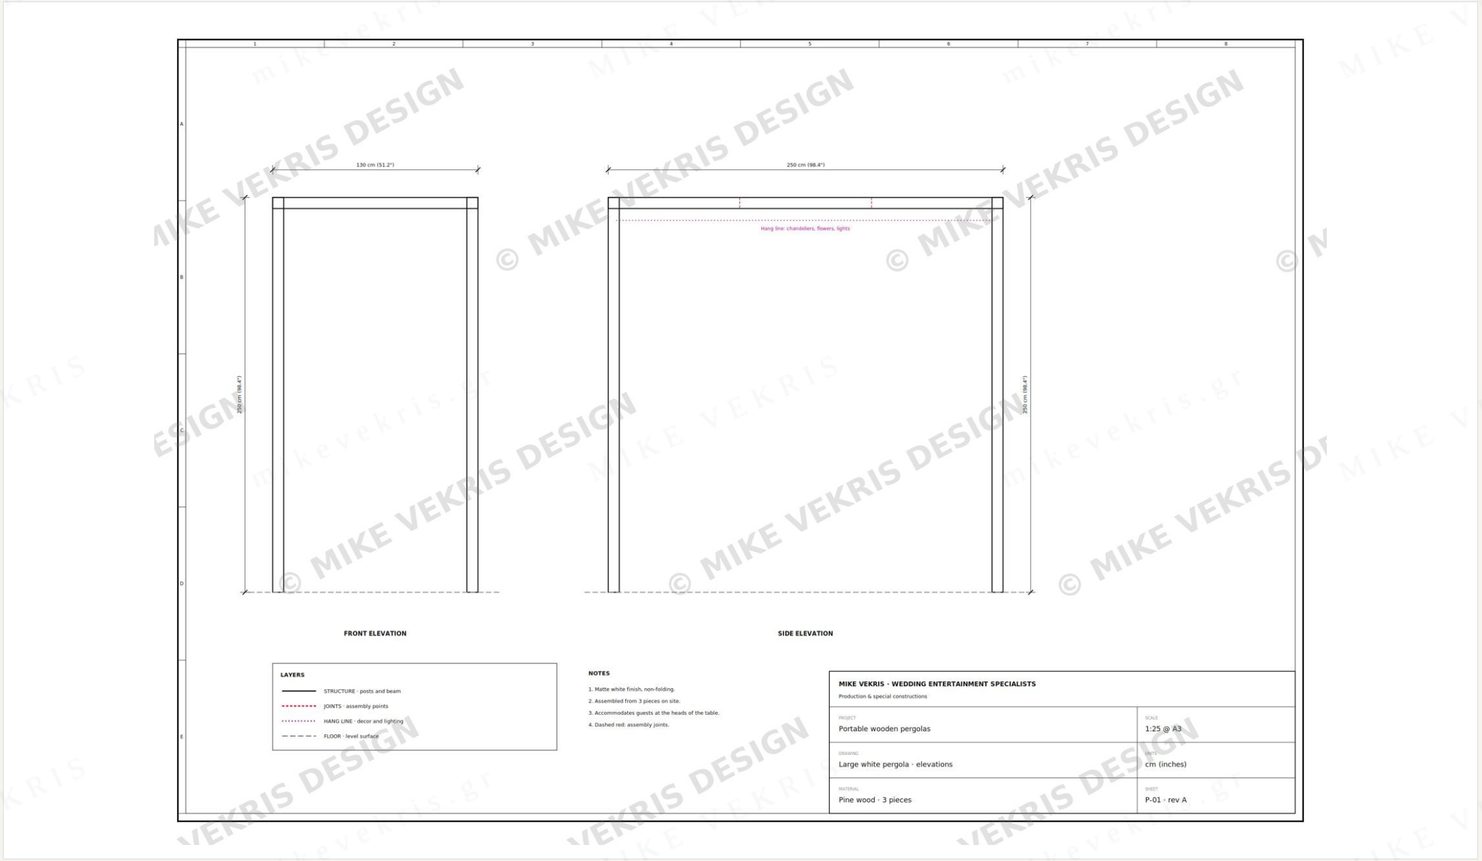

WIDTH	DEPTH	HEIGHT	FINISH	ASSEMBLY
250 cm (98.4")	61 cm (24")	250 cm (98.4")	Stained wood	3 pieces, folding

MATTE WHITE · NON-FOLDING

Large white pergolas.

Large pergolas in matte white, wide enough for guests at the heads of the table, and assembled on site from three pieces. Crisp and bright by day, a soft frame for the light at night.

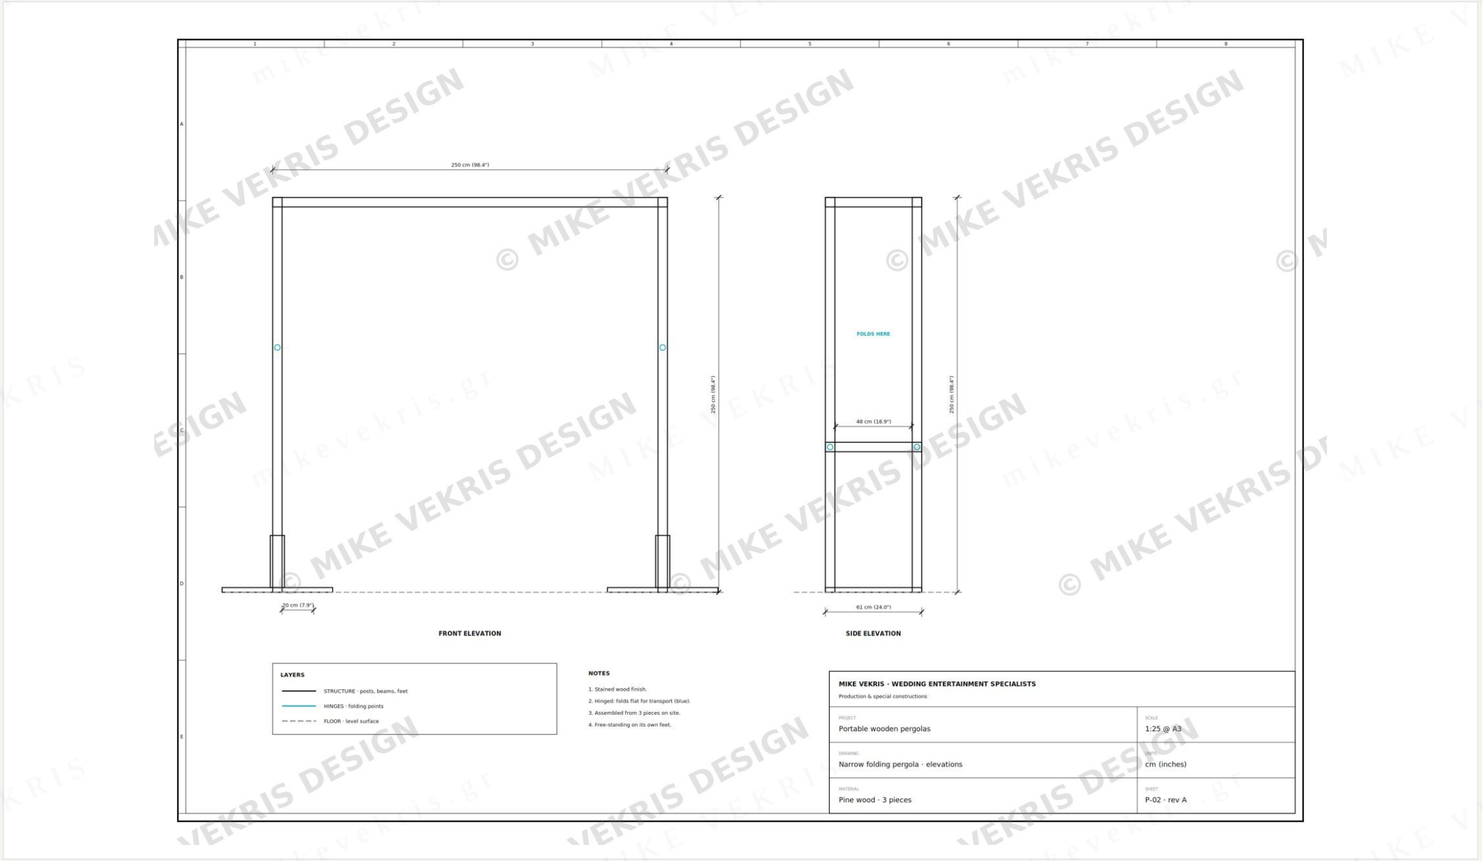

WIDTH	LENGTH	HEIGHT	FINISH	ASSEMBLY
130 cm (51.2")	250 cm (98.4")	250 cm (98.4")	Matte white	3 pieces

STAINED WOOD · FOLDING

Narrow folding pergolas.

Slimmer pergolas in stained wood, with hinges for easy folding and transport. Free-standing on their own feet, assembled from three pieces. Warm and natural, with a rustic touch.

WIDTH	DEPTH	HEIGHT	FINISH	ASSEMBLY
250 cm (98.4")	61 cm (24")	250 cm (98.4")	Stained wood	3 pieces, folding

A BLANK CANVAS

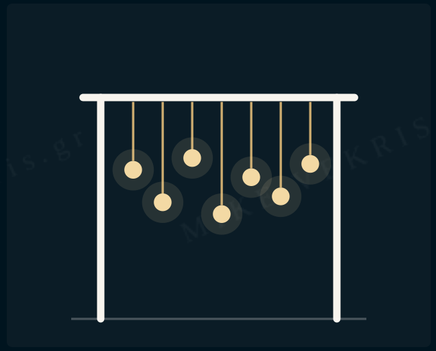

Dress the pergola.

Add what you love, or mix them: chandeliers and greenery, bulbs and candles. With your florist and decorator, we plan it together.

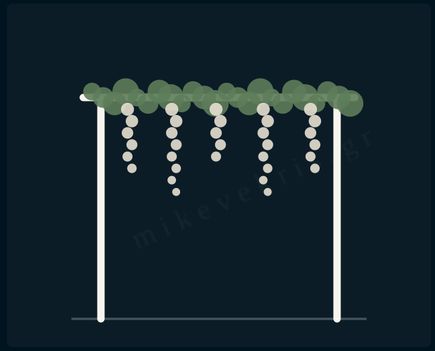

Chandeliers

Crystal chandeliers, hung in a line above the table.

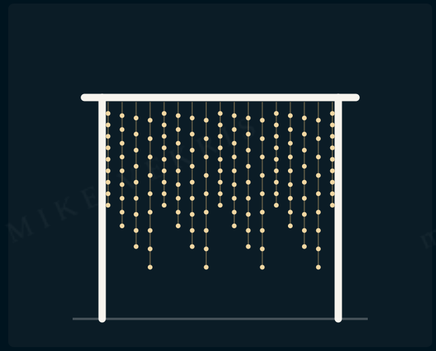

Pendant bulbs

Single bulbs at different heights, warm and intimate.

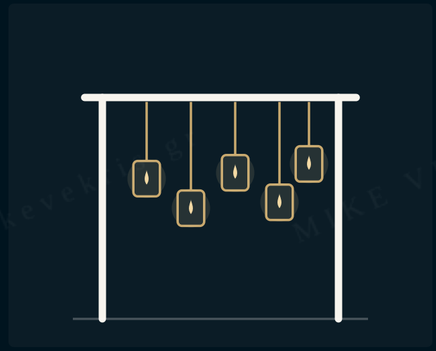

Flowers & greenery

Draped by your florist, until the frame almost disappears.

Fairy lights

A curtain of tiny stars falling between the posts.

Candles

Hanging lanterns for a soft, flickering glow.

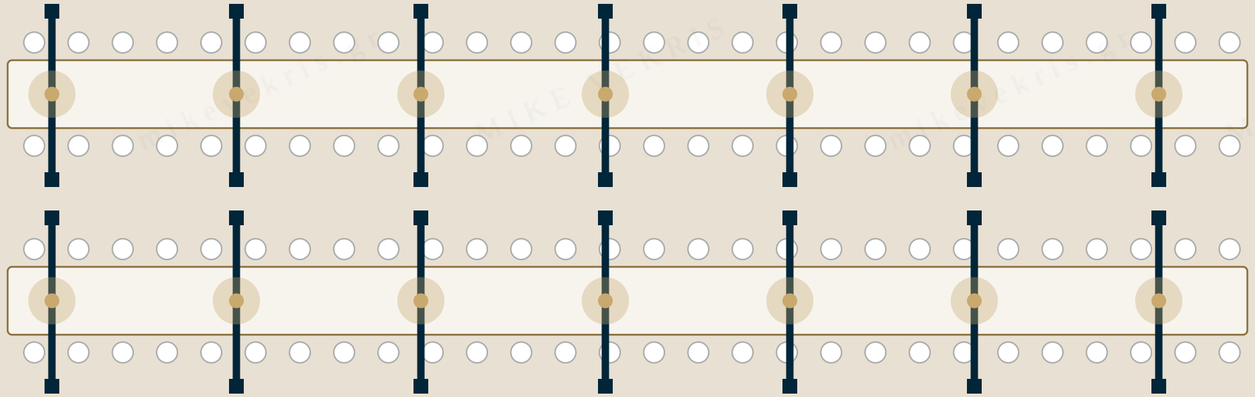

ABOVE YOUR TABLES

Set parallel over your tables.

The pergolas stand in a row along each long table, so every guest sits under the same canopy, and the chandeliers, bulbs or flowers line up perfectly with the table below.

We plan the number and the spacing for your tables and your design, and set them up after the tables are in place, so everything lines up.

TOP VIEW · TWO LONG TABLES · PERGOLAS SET ACROSS EACH TABLE

SPECIAL CONSTRUCTIONS

If it doesn't exist, we build it.

Pergolas are one of three ways we build the sky. For bigger spans or bolder ideas, we go further.

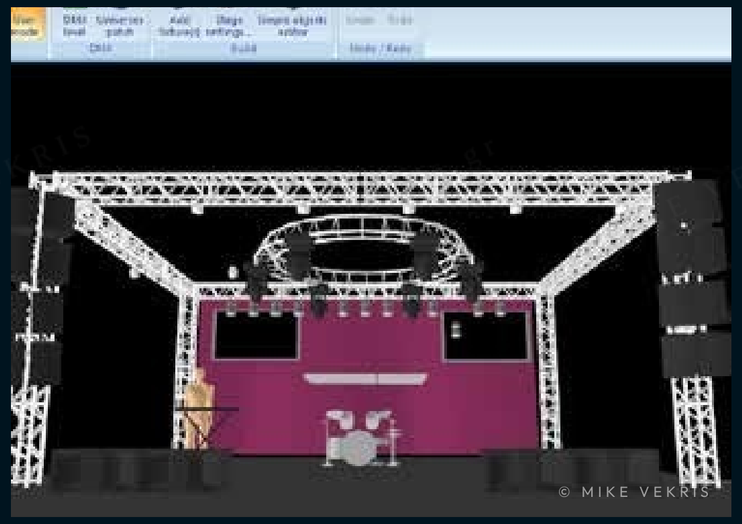

Metal structures

Slender tubes that take any shape: a tunnel of light, a cube above the dance floor. Florists can make them almost invisible.

Truss constructions

Aluminium truss for large spaces: a cube over the dance floor, frames for lights, sound and decor, built to carry it all safely.

One of a kind

Something designed just for you, drawn in 3D first, then built in our own workshop.

FROM SKETCH TO STRUCTURE

Imagined by you. Engineered by us.

01 **Your idea**
A sketch, a photo, a mood: we start from what you imagine.

02 **Our design**
Drawn around your venue. For larger builds, in 3D, to check the engineering and the look.

03 **Built in-house**
Made in our own workshop, from wood, metal or 3D-printed parts.

04 **Installed safely**
Assembled by our technicians to strict safety specifications, lights included.

OUR WORKSHOP

Made by us, from wood, metal and more.

3D printing
Custom details, from decor to monograms.

Plasma & waterjet
Metal cut precisely, to any shape.

CNC wood
Wood cut and engraved with precision.

Paint & finish
Painted, assembled and finished in-house.

FOR PLANNERS AND DECORATORS

We work hand in hand with planners, decorators and florists, so every structure fits the theme and carries the decor exactly as designed.

QUESTIONS

Good to know.

Do the pergolas need fixing points at the venue?

No. They stand on their own feet on any level surface. Depending on the site, some may need extra support, which we take care of.

Which size suits our tables?

The large white pergolas are wide enough for guests at the heads of the table; the narrow folding ones are slimmer and more discreet. We suggest the right one for your layout.

Can you hang lights and chandeliers from them?

Yes, that is what they are made for: chandeliers, pendant bulbs, fairy lights and candles, with every cable hidden.

Can our florist decorate them?

Yes. Florists love them: dressed with flowers, they can become almost invisible.

Are they safe?

Every installation follows strict safety specifications, and is assembled by our own technicians.

Can you build something different?

Almost anything: metal structures, truss constructions, or a one-of-a-kind design made in our own workshop.
